

## **Florida House Passes Historic \$1 Billion Tax Cut**

**Tallahassee, FL-** The Florida House of Representatives today passed HB 7099 with large bipartisan support, providing \$1 billion in tax relief to Floridians. The House's tax cut package is highlighted by a permanent reduction in the business rent tax, the elimination of the manufacturing equipment tax, property tax reductions for disabled veterans and surviving spouses of veterans, as well as the renewal of the Back to School tax holiday and the college textbook sales tax exemption.

"The House has a proud history of cutting taxes for Florida's families, and this year, Chair Gaetz and the Finance & Tax subcommittee have produced a tax cut package that will continue that tradition," said House Speaker Steve Crisafulli (R-Merritt Island). "By returning \$1 billion to Floridians, we will keep Florida's economy growing and provide needed relief for families and job creators. Our tax cut package creates an environment where our business owners can create jobs and expand their businesses, gives parents and students the opportunity to save when they purchase the supplies and books they need, and makes Florida a more affordable state for our brave veterans and their families."

"Once again, the Florida House has shown we are down on taxes," said Rep. Matt Gaetz (R- Ft. Walton Beach). "This year, we are working to return nearly \$1 billion to Floridians because we firmly believe they deserve to keep more of their hard-earned money and can decide how to spend it better than the government. This package of broad-based tax cuts will help grow Florida's economy and make our state an even more affordable place to live."
